

Michael Ditto

Computer Science /// Machine Learning and Networks

mditto3@gatech.edu /// Miridyan@gitlab.com

Education

Georgia Institute of Technology 2016 - Present

Bachelor of Science in Computer Science (Jan 2021)

- Understanding and implementation of Artificial Intelligence
- Implementation of different parts of network stack
- Representing, transforming, and transmitting data over networks

Work Experience

Lalamove July 2019 - August 2019
Software Development Intern Kowloon Tong, Hong Kong

- Worked on core wallet team on current and revamp wallet systems
- Primarily worked in goLang
- Wrote new functionality for current wallet system for transaction handling
- Added new endpoints and corresponding functionality for new wallet system
- Added new SQL queries to wallet system ORM layer
- Modified wallet revamp DB to allow for new functionality
- Built, ran, and tested systems in Docker environment
- Made contributions to company core libraries to add Apache Kafka messaging support
- Wrote suite of api-tests and unit tests for all contributions
- Modified React-based adminpanel to utilize newly written functionality

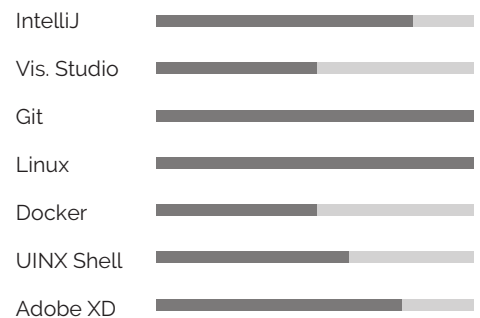

Ipswitch June 2018 - August 2018
Software Development and QE Intern Alpharetta, GA

- Worked on the main product "WhatsUp Gold 2018"
- Responsible for documenting a completely undocumented test framework
- Wrote unit tests for "WhatsUp Gold 2018" to verify functionality and interface
- Worked in SCRUM teams with other developers
- Shadowed developers of core product
- Involved working on an antiquated codebase with a great deal of legacy code and replacing said code
